

WAYNE NORTON for San Benito County Supervisor, District 2

Dear Neighbor,

The world has changed dramatically since voters chose me to move on to a runoff election for County Supervisor. Sadly, our relatively small community is not immune to the forces of the historic COVID-19 pandemic. Our economy is in crisis, hurting small businesses and working families—and putting state and local budgets into a downward spiral. **We must build a sustainable future, one built on a partnership of a strong economy, healthy environment, and an involved community.**

Keeping our community safe and well during the pandemic is a top priority, so traditional campaigning is irresponsible. Instead, I have been at work doing what I can to assist our residents through this crisis by helping with food drives, organizing food distributions, ensuring our community was counted for the 2020 Census, delivering food and services to our seniors, securing reliable WiFi for rural students, and forming an affordable housing task force. **Given the urgent public health and economic challenges we face, it's time to get back on the political playing field to organize, seek change, and act swiftly to steady the ship and address these major challenges.**

I have called San Benito County home for over 30 years. The rural character of this community, our environment and our quality of life are things I treasure. At the same time, we cannot sacrifice the rapidly growing ranks of vulnerable residents who are struggling to rebuild their lives in the wake of this crisis by simply opposing all forms of economic development in our county. **Rebuilding our local economy while protecting the environment must be the priority of the Board of Supervisors. I am the only candidate who will ensure all San Benito residents have the opportunity for dignified work and economic security in our county.** This will be my major focus as your next supervisor, and is why I am asking for your vote on November 3.

Wayne Norton

As a token of appreciation for this amazing community we call home, I am including a coaster designed by my partner Leslie Austin. It celebrates some of what makes our little slice of paradise so special. I hope you find them a useful reminder of how lucky we all are to live in San Benito County.
